SCRF Hub

Customer Interview Guide

Disraptor AI Founder Bootcamp — April 2026

---

1. Background

Item	Input
Name	
Email	

2. Instructions

Purpose

- Validate that SCRF Hub solves real, cross-domain risk challenges for SMEs
- Discover how business owners think about risk holistically — not just compliance
- Identify feature priorities and inform product iterations
- Build confidence in speaking to customers to grow the startup

Interview Tips

- Ask open-ended questions — avoid yes/no formats
- Stay curious: follow up with “Tell me more about that” or “What happened next?”
- Don’t pitch SCRF Hub during the interview — listen first
- Silence is powerful — let the customer think before you fill the gap
- Cover all risk domains (financial, operational, strategic, cyber, compliance) naturally

Steps

1. Identify 5 or more customers to interview (new or existing)
2. Use open-ended questions — let the customer lead the conversation
3. Record responses verbatim where possible; do not paraphrase
4. Fill out the transcript table for each customer below
5. Upload completed file at:

#	Question	Customer Response
A. Understanding the Business Context		
1	Tell me about your business — what do you do, and how long have you been operating?	
2	Walk me through a typical week. Where does most of your time and energy go?	
3	What are the biggest uncertainties or risks you think about when it comes to the future of your business?	
4	How do you currently stay informed about changes in regulations, market conditions, or threats that could affect you?	
B. Exploring Pain Points Across Risk Domains		
5	Describe a situation where something unexpected disrupted your business. What happened and how did you respond?	
6	When it comes to protecting your business — whether that's data, finances, operations, or reputation — what keeps you up at night?	
7	How do you handle planning for things like cash flow shortfalls, supply chain issues, or losing a key team member?	
8	What has been your experience with regulatory requirements — things like POPIA, BBBEE, OHS, or industry-specific rules?	
9	How confident do you feel about your business's ability to recover from a major disruption, like a cyberattack or a key client leaving?	
C. Current Tools & Decision-Making		

10	What tools, systems, or people do you rely on to manage risk or make strategic decisions?	
11	When you need guidance on a compliance, financial, or operational matter, where do you turn first?	
12	What does that process look like in terms of time, cost, and the quality of answers you get?	
13	How do you decide what to prioritise when multiple risks or issues compete for your attention?	
D. Exploring the Opportunity		
14	If you had a tool that could give you a real-time view of risks across your entire business — financial, operational, strategic, cyber, and compliance — how would that change how you operate?	
15	What would make you trust an AI-powered platform to help you identify and manage risk?	
16	What kinds of outputs or reports would be most useful to you — and who in your business would use them?	
17	How would you feel about a platform that tells you what it can't help with and redirects you to the right expert?	
E. Value & Willingness to Invest		
18	How much are you currently spending — in time or money — to manage risks and stay compliant?	
19	What would a solution need to deliver for you to consider it worth paying for monthly?	
20	What would make you recommend a risk management tool to another business owner?	
F. Closing		
21	Is there anything about running your business that we haven't discussed that worries you or that you wish you had more support with?	
22	If you could wave a magic wand and fix one thing about how you manage risk in your business, what would it be?	

Key Takeaways

- **Top risk concern:** _____
- **Current coping mechanism:** _____
- **Feature most valued:** _____
- **Willingness to pay:** _____
